General Comment

I am an artist and have been for as long as I could pick up a crayon and a pencil. AI has done nothing but harm the environment, steal people's jobs, make things even more difficult and to top it all off having greedy corporates who know NOTHING on what art is about to try and use this to make a quick buck cause they're too f&^% greedy and heartless to stop and think that the reason art is so loved is cause its made by actual human HANDS and human CREATIVITY. As an artist and one who has come to call the artist community home, this is the highest form of insult to animators, writers, singers and all other artists from around the globe. This is how you lose money and business. Stop the AI take over. We are tired of it. Sincerely an artist
