General Comment

The fact that we're even discussing this is gross and insulting. Generative AI is disgusting. It's trained on copyrighted material--art, music, writing--that were painstakingly created by passionate independent creators, and in turn vomits out infringing slop content. As an independent artist, I abhor AI and everything it stands for. I DO NOT think it's fair for my work to be used without my permission and without compensation to train software models. AI steals from artists. This is stealing. A 4 year old can tell you that stealing is wrong. This is basic s&^0%.
