General Comment

Hello

This is an extremely dumb move that will allow OpenAI to rip your stuff off and there's nothing you can do about it. Meaning if anyone wants to steal your words, writings, or other stuff and make deepfakes out of it, that will be entirely your fault and there's nothing you can do to stop it.

I would add how much this would hurt literally everyone, but it's likely the people who made this could watch their constituents be in a SAW move trap gauntlet and watch with popcorn and indifference.

I extremely oppose this notion and I advise everyone else with common sense and a brain do the same thing.
