General Comment

AI should be banned from using artists works. AI programs using others art, words, voices, and likeness should be illegal. It's unethical in every way. It's not cool, it's not at all about being 'accessible' to disabled communities either. Disabled people have been and will always be making art without AI.

AI has ruined so much and it needs to stop. AI has been making the US look like absolute fools. It's not the good look you think it is. It's an extremely cowardice and ignorant look.
