General Comment

I'm a writer. I've been writing and telling stories since I was 3 years old. My writing is extremely personal and often deals with my disability. I published articles and fiction long before GenAI existed. Now, OpenAI wants to steal from artists with impunity, setting a dangerous precedent. AI plagiarizes by design while understanding nothing. It encodes bias, which some people pretend is "objective." Stop AI from mining and profiting from artist's work. Artists should retain all copyright, credit, and power over their work and make a living from it.
