Document: NSF_FRDOC_0001-DRAFT-6655

Comment on FR Doc # 2025-02305

Submitter Information

Name: Greg Franklin

Email: [REDACTED]

General Comment

This so-called “artificial intelligence” software is nothing more than an automated plagiarism program for people without talent to synthesize the COPYWRITTEN hard earned lifetime work of artists, writers, musicians and animators into a supposedly “new” product for low effort hobbyists to pass off as original. It is WRONG, it is ABJECT PLAGIARISM and needs STRICT REGULATION to protect the artisans like myself who have spent their lifetimes learning their trade.
