General Comment

This is not something I wish to see fulfilled. I believe a.i. CAN have a place in America's future, but not by taking from others hard work. Should it be able to replicate what say an artist can do, a music creator, a receptionist, what are they to do? A machine does not need pay, but this country requires people to WORK to LIVE.

I do not want to see people have their jobs, homes, taken by this.

For some things a.i. can be amazing. NOT, all things.
