General Comment

Hello. I ask for the House to forbid the training of A.I. on media, as this is a violation on the copyright law on fair use, for it has been training on media such as arts, literature, music, and a lot more without the consent of the creator and that it blatantly steals from them, showing evident components that it found from their original sources. It is unethical, ruins the trust of the people, and is taking the jobs of those with such artistry. It does not develop the creativity field of people either. I pray that the body considers the voices of the people in this issue.
