General Comment

Hello,

I am VERY against Open AI or any AI that steals from creative artists. People work all their lives to create something unique and innovative. If you have AI encroaching on the creative process of creative people, there will be NO new innovative future. AI only copies and spits out subpar results. And AI does NOT help the artist or creative person; it cheapens it for operators to save a dollar. If you take away innovative people, we will not only fall behind economically but also be stuck in a cycle that never goes anywhere. Leave AI out of the creative process. We will do just fine without it.
