General Comment

AI has no place in our government without consent, compensation and credit for every writer or artist that the system is trained upon. Otherwise it is nothing but theft and destruction of copyright.

Please do not do this to the millions of Americans who make their livings as writers and artists. Please do not do this to Americans who will consume this slop.

The tech billionaires that thrive on bubbles should not be entrusted with our data, our creative work and our culture.

Thank you.
