General Comment

This plan is a determinant for the creative pursuits to everyone who wishes to create. AI has no place in the humanities we practice. There is no beauty in an algorithm, and corporations only desire to use OpenAI to remove artist and writers from creative endeavors in our media. I employ you all to not allow the use of copyrighted material for greedy business to rob from creative members from our society.

This executive order is actively trying to break copyright laws that has been established in the last years of precedence. To ensure the growth of creative arts in America, the copyright laws of media, art, and music needs to be protected.
