Document: NSF_FRDOC_0001-DRAFT-7341

Comment on FR Doc # 2025-02305

Submitter Information

Name: Local Citizen

General Comment

AI is an obvious scam that steals work from people who actually do something for a living. The only value it has is in inflating the valuations of companies that don't make real products in order to benefit venture capitalists. It doesn't deserve any protections of any kind and should instead be heavily regulated, to the point of having a very narrow set of legal uses.
