General Comment

I DO NOT BELIEVE AI WILL HELP THE US. It destroys resources that will take years to restore for the end result of something that a person can do on their own for less than \$5. It has been periodically proven to steal from artists without consent in order to train it time and time again. If you think you are immune to AI stealing from you, you will find yourself mistaken. The modern day AI will take everything from you to make a pale imitation of your life's work. It will get things wrong and not even realize it unlike a human. EVERYONE will be affected negatively by it.
