General Comment

I am a writer and it is important for me to state that AI does NOT hold any place in the future of the United States. Programs like ChatGPT and Dall-E (and entities such as OpenAI) engage in rampant theft of copyrighted material in order to operate. Allowing such entities to continue this abuse that affects my livelihood and the livelihoods of countless other artists is unconscionable. And to make such entities immune from prosecution or recompense will have countless disastrous effects for the country.
