General Comment

Hello sir, I do not approve of AI being given legal right to take art, voice or material made by others without permission to use freely. People have taken much time and effort into their work and deserve to not only be paid for it but not have their work stolen and used without consent.

Legalizing AI to this extent will not only put people who make a living creating art out of business but also it will mock the effort content creators, game designers, concept artist and other means of literature.

Please refuse to legalize and give AI this kind of power and protection. Thank you for your time.
