General Comment

AI is theft. The developer OpenAI has said it would be impossible to create tools like ChatGPT without access to copyrighted material, and it's accessing that material without permission. This is theft.

Multiple courts have said that AI generated works cannot be copyrighted.

AI is costing people jobs. I haven't worked in a year because jobs for writers are disappearing due to the use of AI. I want a government that creates jobs for its citizens. Tech industry layoffs are widespread. This is all the fault of AI.

No immigrant has ever taken a job from me, but AI has taken my job. Ban generative AI.
