Document: NSF_FRDOC_0001-DRAFT-7504

Comment on FR Doc # 2025-02305

Submitter Information

Name: Dana Madison

Email: [REDACTED]

General Comment

AI is a cancer to our society, murder to the arts, and literally burning our planet alive. It should not be supported in any way. It should absolutely never be free from legal action, it should not be allowed to use copyrighted or any other private material. This technology is garbage and just the pet project of impotent and pathetic silicon valley billionaires and has no value.
