General Comment

I do not condone OpenAI or its use. I am vehemently against OpenAI. AI is dangerous. Allowing OpenAI to have unfettered access to stealing (yes, STEALING) data to then “train” their model USING THE STOLEN DATA is a danger to the safety of individuals, the public, the economy, the government, and the world. Allowing OpenAI to do as they please would result in the destruction of creativity, critical thinking, privacy, originality, and so much more.

OpenAI will destroy the lives of more people than it will help.

Do not allow OpenAI to have any access or rights. It should not be allowed to run rampant with everyone’s information.
