

PUBLIC SUBMISSION

As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m8b-1k2p-kfqb
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001

Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-7536

Comment on FR Doc # 2025-02305

Submitter Information

Name: Jack Johnson

Address:

General Comment

Please consider expanding and strengthening the copyright protections of artists, writers, photographers and filmmakers. Copyright law has been ignored or overridden when it comes to AI training modules. The major AI players are all using stolen writings and artwork. The AI product has no merit without the work of people, whos work is being used without compensation. This is labor without pay. AI has its place in non-creative industries, no human work industries, and can be extremely useful in the pursuit of scientific and medical advancements. However, generative AI is pursued with the sole purpose of putting people out of work. Giving AI companies a free pass, will do nothing but harm the american people. AI is already harming americans, as it is pushed onto every website and electronic device, withou options for opting out. AI should be opt in, only. I am sick of new AI options appearing without my consent on my personal devices. I have no intention of using AI as a product. I have no intention of paying for products that us AI as features. I am an artist, and bank worker, where my primary function is research, problem solving, and verbal/written communication. The generative AI companies are a threat to my job, using the stolen collective work of the masses, to create language models with the sole purpose of replacing the labor force. AI is terrible for the American people. Also its a scam. There is no value in the product. Its a massive money and energy sink and created literally no profits. Its all a bet on suckers who want to chase the next big thing, but this isn't it. This is a waste of time and money. Nobody wants this. Please. You need to protect us from AI. It is already doing damage to the american people. INCLUDING WHITE AMERICAN MEN.
