General Comment

* I do not believe AI holds a place in the future of the US
* AI steals from my livelihood as an American and profits off of theft
* AI is overhyped and is fleecing the eyes of the American public.
I work in the entertainment industry and AI is causing rifts and strikes are being held in unions to stop it from destroying the livelihood of thousands of people. Do not take the humanity out of art. I already have no faith in this nation. Please don't deteriorate it further.
