Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-7631

Comment on FR Doc # 2025-02305

Submitter Information

Name: Jack Langenfeld

General Comment

Generative AI is an insult to art itself. If left unregulated, artists will have no control over how their art is used in generative AI modeling. Generative AI companies will be able to steal art from any artist and use it in their models without permission, ruining the careers that independent artists give their lives to. Sensible regulation for generative AI is absolutely essential, and there is no future for American artists if we leave generative AI unregulated.
