General Comment

Walter Elias Disney, better known as Walt Disney, a lover of the American family and the American dream who dreamed of people going to the Moon before it happened and going even further beyond that would be deeply ashamed at this proposal. This goes against the values this administration upholds. This is also terrible for the economy as AI has lost companies billions of dollars. Most consumers don't want AI, it's truly bad for the economy. I cannot state this enough and I urge you to not go through with embracing AI as it will harm the shareholders and others who deserve to have all the money too. AI is blasphemy, a sin, a abomination that Jesus Christ and God would never want to see in Heaven.
