General Comment

I do not believe AI holds a place in the future of the US. AI steals from my livelihood as an American anrtist and profits off of theft. AI is overhyped and is fleecing the eyes of the American public. We should be prioritizing creating jobs for real people and stop these grifters from stealing from countless artists and Americans. If you allow these company's to profit off our hard work you are cowards and history will not remember you kindly.
