General Comment

AI is horrible for the current situation we have. It give incorrect information from data scraping, google is a huge contributor to this. AI steals from my livelihood as an American and profits off of theft. AI is overhyped and is fleecing the American public / AI is a speculative market similar to cryptocurrency and NFTs, with false promises to fool the public and huge legal problems by enabling them. They also use us so much water with their servers from sooo many people using them, they're a huge environmental disaster happening.

All in all. I HATE AI AND DO NOT BENEFIT FROM IT!!!!
