Document: NSF_FRDOC_0001-DRAFT-7765
Comment on FR Doc # 2025-02305

Submitter Information

Name: Samuel Russell

[REDACTED]

General Comment

This regulation will allow for corporations to steal whatever they want with zero reproductions, and thus remove any incentive for the creation of intellectual property on a small scale. This only benefits the upper classes of our society and is deeply hypocritical. There are too many stories of people pirating and getting fined millions of dollars for single downloads. This allows corporations to steal anything and everything without fear. This regulation must be stopped.
