General Comment

I have seen too many artists, too many performers, too many creative individuals lose everything they worked for because of the use of ai. AI has done nothing but steal the hard work and efforts of REAL LIVE CREATIVE people, and shilled nothing but garbage, and falshoods!

I do not want to see the content or media I love be turned into lazy, ugly, heartless trash!

The images or recordings people have used ai to generate can have a very real effect on people and their careers, and it should be taken more seriously! Not as some way to save a buck on a project (surprise, it'll actually cost more in the long run!)

Stop ai! Protect real people!
