## General Comment

AI is made of the theft of thousands of hard-working, tax-paying people and is a danger to everyone if left unregulated. Scammers are already using AI voices and deep fake images for crimes such as taking advantage of the elderly. It takes up too much energy and is terrible for the environment with very little gains or profit to be made from what is basically the latest techbro fad. It's irresponsible to leave this force unchecked and it can ruin the lives of thousands of people, especially the people who work in the creative fields that make our countries vast amounts of profit. You have the power to stop this and actually help people, SO PLEASE DO SO.
