General Comment

Hello,

I think it is very irresponsible and lazy to use AI in any capacity. I also believe it is irresponsible and lazy to train AI on the work of others without permission (but, I mean, we all have brains right? So, maybe don't use AI at all and think of something on your own for once). All creative works, films, books, short stories, scripts, visual art, all of that was made with work and passion and feeling. Training AI on that work is not only dishonest and (again) lazy, it's illegal. It's stealing copyrighted works and IP. Anyone who does so should be shamed mercilessly, including the government deciding it's okay. It's not okay, and if you train AI on people's work or use AI, you're a loser, full stop.

I do not consent to this document being used to train AI.
