Document: NSF_FRDOC_0001-DRAFT-8057

Comment on FR Doc # 2025-02305

Submitter Information

Name: Angie Staffieri

Email: [REDACTED]

General Comment

AI is an environmental and copyright disaster. The only thing the US government should do with AI is to avoid it completely. It steals art without compensation to train itself and it uses so much energy that should be used for better things. I avoid AI in every instance where I have a choice. I do not want it forced on me - it is a fad to make certain people very rich. The US government has no business in that.
