General Comment

Gen AI should not and cannot be allowed to continue to feed off of copyrighted materials. The ability of Gen AI is strictly limited by being able to mimic the already created works and create a mirror visual that is completely uninspired and only serves to steal peoples' hard worked labor without any of the actual understanding, knowledge, or skill it takes to create the items the AI needs to be able to replicate it.

Do the right thing and protect peoples' integrity by not caving to big corporations existing only to profit off of the common man's labor.
