As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m8b-2bhn-3k17
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001
Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-8172
Comment on FR Doc # 2025-02305

Submitter Information

Name: Joely King
Email: [REDACTED]

General Comment

No one wants AI. Rich people invested too much money into it and now are desperate to make it profitable when everyday people hate it. I have to constantly type “-ai” into Google with every search because I don’t want it. It’s already such an annoyance. It’s destroying our planet, stealing from our artists, and now you want to make it legal to steal instead of shutting this nonsense down?

I write as my hobby and enjoy posting my stories online to share with friends and whoever else wants to read them, not so large corporations can train their word calculators on. Because that's what these programs are. They're not thinking, they're not creative, they are no smarter than the graphing calculator I used in high school geometry. We've seen time and time again that these things cannot be trusted, they lie when asked questions because they have no way of understanding what is true or false. I am positive my work has already been stolen; what I poured so much of myself into just for the fun of it, for the love, for the joy, just to make others happy. That is what's been taken from me in the name of something I find unethical and appalling. Something that is actively making our society worse.

AI is not the future, it’s an overhyped bubble that’s going to burst. I just hope it bursts before it takes our whole planet down with it. Focus on things that actually make everyday Americans lives better instead of making it easier for the rich to take advantage of us.

Training AI is not fair use. It is theft. It should be legally treated as such.
