Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-8219

Comment on FR Doc # 2025-02305

Submitter Information

Name: Caitlin Eder

General Comment

While artificial intelligence may have some valuable use cases, that is not the case for its current use. At this point in time, AI is at once a speculative bubble that is vastly overvalued, an unreliable search engine that often confidently offers false information, and an easy way for malicious actors to manufacture everything from fake revenge porn to CSAM. It needs to be brought under control and highly regulated, and cannot be allowed to continue its harmful current state.
