Document: NSF_FRDOC_0001-DRAFT-8237

Comment on FR Doc # 2025-02305

Submitter Information

Name: Peter Elsesser

Address: United States,

Email: [REDACTED]

General Comment

Privately held AI companies with proprietary models should not be allowed to steal copyrighted data for training. This is wholesale theft for profit and utterly immoral. Everyone else is legally bound to respect copyright, AI companies should be as well. Any AI models that result from stolen data sets should be public domain.
