General Comment

"OSTP seeks input on the highest priority policy actions that should be in the new AI Action Plan. "
The highest priority should be to SHUT THIS NONSENSE DOWN RIGHT THE EFF NOW. Any "business" that can't survive without theft (of copyright) shouldn't exist.
Furthermore, none of this garbage works the way its proponents claim. It will never create any good art. It will never write engaging prose. Actual humans can barely do those things and you expect a copy of a copy of a copy run through a blender to do it? No. Stop trying to make "fetch" happen.
