General Comment

This is a disgusting plan. The integrity and ownership of creative works, personal posting, and other intellectual property should not be infringed upon for such disgustingly self-centered and exploitative profit as this intends. Artificial intelligence data pools should ALWAYS be manually "opt-in" and should never be able to blanket scrape someone's materials, photos, data, or other information without explicit permission. To allow anything else is both an ethical and moral violation against the people. It is a risk not only to individuals but also provides potential risk to their employment, relationships, and communities. STOP THESE ABUSES OF THE AMERICAN PEOPLE!
