General Comment

I do not believe AI holds a place in the future of the world.

AI steals from my livelihood as an artist and profits off of theft of intellectual property and creativity that is developed over a lifetime.

AI is overused and intellectually dishonest.

AI is being pushed by the laziest and most feckless among the populace who only want the prosperity and accolades that go along with being seen as a creative.

You don't allow people to steal property. Intellectual property is STILL property.
