General Comment

AI continues to steal decades of hard work from artist and creatives yet does not give the proper credit and or payment nor does it receive the proper permissions or consent to use such copyrighted works. Just so it can profit off of hard working passionate creatives. AI as it stands is a risk to the whole creative medium for both hobbyist and professionals. AI should not under any circumstances be allowed to steal the work of others. Unless it has the proper consent from the party's whose work is being used for the training of AI. Anyone work that has been used in the past without consent for AI needs to be properly credited and compensated or have all prior data that is and was used deleted.
