General Comment

This law would bring about the end of copyright, thus anyone's ability to properly safeguard their IP's, art, and businesses.

By allowing this law to pass, this would bring about the worst aspects of China to the US. This is how you play with Communism.

I do not believe AI holds a place in the future of the US.

AI steals from my livelihood as an American and profits off of theft.

AI is overhyped and is fleecing the eyes of the American public.

Do not allow this to go through. There is no turning back from this and we will never be able to recover as a country.
