General Comment

This is legalizing theft and that is unacceptable. Open AI will steal, distort, warp and violate what creatives develop and ruin the ability for any artist, writer, developer, studio or anyone who shares any form of creative or intellectual work to use such skills and assets these people have rightfully honed to make a living wage and sustain themselves and their loved ones. Open AI will use these people as fodder, feeding a machine that needs incredible amounts of power that would better serve citizens and cities in need of such energy and can only produce less than a percent of the potential Open AI claims it can. This executive order will simply tell Open AI that they are allowed to use the creative and intellectual ability of US citizens without our consent and without our benefit. It tells the citizens of the United States that what we are able to produce is our government's right to hand over to someone else and that our opinion over what we make doesn't matter- that we have NO RIGHT TO WHAT WE MAKE. We are not free labor for companies like Open AI to exploit. We are not simply fodder for someone else's machine to chew up and discard without care for our ability to sustain a lively hood. DO NOT give Open AI the ability to use us as slaves for someone to take advantage of and inevitably ruin for something that will gain them NOTHING. DO NOT GIVE OPEN AI ANY LEGAL RIGHT TO STEAL FROM THE UNITED STATES OR ANYONE ELSE ON THIS EARTH.
