Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-8498

Comment on FR Doc # 2025-02305

Submitter Information

Name: Concerned Citizen

General Comment

Loosening restrictions on AI companies will do nothing to bring down their cost of development. Any U.S. company worth their salt will never let a chance to keep their price the same or raise it when faced with an circumstance that calls to lower it. Beyond that given how badly U.S. AI companies were upstaged by deepseek in terms of cost, this half assed effort will not be effective and once again lower the opinion of the public on AI companies once again. The only real way to get companies to work harder and cheaper it to raise direct restrictions on them, the government should bring them to heel and have these companies organized and working for the actual benefit of the nation.
