Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-8578

Comment on FR Doc # 2025-02305

Submitter Information

Name: K R

General Comment

AI cannot be ethically cultivated unless it is properly regulated. It is a necessity to protect both the people in the moment and the users of the future. No AI model built on unethically sourced data will be viable for private or commercial use.

There must be regulation that ensures that all data sourced for any AI model is sourced from those who knowingly consent to having their data trained on and are compensated fairly for their contributions.

For-Profit AI should not be allowed to be trained on sources from the free internet. The free internet is for nonprofit use, and any AI trained on free resources should itself be nonprofit as well.
