General Comment

I hate AI. I don't want it in America. It does not hold a place in the future of the USA. It steals from my LIVELIHOOD as an AMERICAN and profits off of THEFT. Stealing an AMERICAN'S WORK to create SLOP, FILTH, that actively PULLS DOWN at the American standard of all that is 'good'. It is overhyped and is fleecing the American public. It is a speculative market that costs far more than it is worth it to produce filth that doesn't even work the majority of the time. It is full of false promises to fool the public-ELECTED REPRESENTATIVES INCLUDED- and there are Huge problems by enabling them. No one will respect any so-called 'Art' coming out of the US if we allow this regurgitation of Filth to become a so-called 'Product'.
