General Comment

I'm a professional translator, writer, artist, and publisher. So-called "AI" threatens all of my work. LLMs and their ilk steal copyrighted works and then turn them into far-worse sludge, all in the name of putting people out of work, all while using huge amounts of natural resources. It is sad that we're even considering giving this technology greater compass to further harm working people and the environment. Do not allow the ultra-rich to further enrich themselves at the expense of working people. Do not embolden theft. Do not encourage environmental destruction. Oppose "AI" and its harms.
