General Comment

This is by far the dumbest, most idiotic, and unethical idea I have ever heard!

AI is getting on my last nerve, along with the incompetence it brings.

Many of us have jobs who are artists and animators who have worked tirelessly our entire lives to making a career out of doing what we love; Only for AI to come in and take it all away from us for the sake of making a quick buck.

AI is doing nothing to benefit us, in fact its doing the opposite effect!

Lives are being destroyed, jobs are on the line, and repusling so many people away from it for how horrendous AI is becoming, and I know for a fact I'm not the only one who thinks that.

Please for the sake of all of us, dismantle AI, get rid of it, I DO NOT CARE!!! As long as AI can stop interfering with my life as well as everyone else who is sick and tired of it, ONCE AND FOR ALL.
