General Comment

AI is horrible. It is built on stealing, plagiarism and laziness. I do not believe that AI is a useful tool in any way shape or form. I am a teacher and I am seeing how this tool is ruining students' abilities to do work. It is a horrible, disgusting tool for misinformation -- and that's not even taking into account how bad it is for the environment.

AI steals from people's livelihoods in order to create regurgitated slop, and profits off of theft. AI is overhyped and is fleecing the eyes of the American public.
