General Comment

AI should never be allowed to have a place in the future of the US, or the future of humanity as a whole. AI has only taken away from humanity, it has ruined the dreams of genuine human artists and workers who want to have a successful career, as more companies are deciding to use AI over hiring human workers. AI has been used to sexually abuse those who are unfortunate enough to have fake pornography created of them, which is absolutely disgusting. There is no correct or ethical use of AI in our future, and if it is allowed to be able to legally steal from any source, it will only lead us to a certain doom. Stop trying to take advantage of the people and LISTEN to them, get yourselves together and shut this awful plan down if you care about the future of your country and humanity as a whole.
