General Comment

AI is not human. It is a simple machine and belongs to many, it is not a hardworking citizen like us. It has no place in the future of the US development, and should not be allowed to bypass the rules and regulations set on us, and carve out our years of hard work nearly instantaneously. AI should not be allowed to use our work, without copyright, without punishment. It is ultimately undoing the effort we have put into our works and therefore should not be allowed.
