General Comment

You will eliminate the jobs of thousands of people important to millions more if you do this, effectively erasing them from the workforce and forcing them to work fast food and grocery bagging. You cannot do this, it is unethical and would kill all my interest in video games. Three video game voice actors have helped me through life and if you eliminate their jobs, you worsen my anxiety and depression to the point where I, and millions like myself, will commit suicide. Are you truly that heartless? Punish OpenAI, it is not America's future, it is an organization of pure evil that will destroy the integrity of art nationwide, if not worldwide. The entire entertainment industry will collapse and become useless. Of course, you just want that so you can replace all art with ass-kissing propaganda, thus completing our transformation into Nazis. That's what you want, isn't it? No kindness, no compassion, just mindless worship of a morbidly obese dementia patient who is raping our Constitution and inflicting Hitler and Stalin policies upon this once-precious country. You just want the population of the United States to be zealots who believe the Earth is only 10,000 years old, that there were no dinosaurs and that suffering minorities deserve to be eliminated. Shame on you all! If you pull this switch, I will support foreign countries' desire to militarily destroy the United States and turn it into a smoldering crater as the population starves to death and cannibalizes in the ruins and unlike World War II Japan, there will be no rebuild! Just extinction! It is impossible to call you human when you lack humanity! If you let OpenAI have unfettered use, I will be praying for your deaths and the deaths of this whole country every night! You will not deserve to live, but to be beaten within an inch of your lives as you beg for mercy, which will never come, only endless suffering! The United States could teach Hell how to be worse than it is if you enable the firings of video game voice actors! You should be ashamed of yourselves and you need to interact with actual human beings this will affect. Shame on you, call your parents.
