Docket: NSF_FRDOC_0001
Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-9210
Comment on FR Doc # 2025-02305

Submitter Information

Name: Dimitri Lane
Address:

General Comment

Major large language models (LLMs), also referred to as Artificial Intelligence (AI) to bolster their apparent futurism, depend on unauthorized access to copyrighted material to supply their training data. This is a flagrant violation of the rights of the writers and rights owners of these stolen works. LLMs do not need government protection - they need to be reined in and prevented from unfairly profiting off the works of American authors.
