Document: NSF_FRDOC_0001-DRAFT-9444

Comment on FR Doc # 2025-02305

Submitter Information

Name: Jeremy Pirri

General Comment

Disappointed that this is even being considered. Generative AI works by stealing others' work and generating its own soulless garbage. Not only that, but we've seen the deepfakes it's possible with.

Something this potentially dangerous should be regulated. There should be accountability, not just for the creatives who are being exploited and could lose their jobs, but to the people that could be attacked and misrepresented by this technology.
